Investment objectives

In order to reinforce the preservation of capital and to align with the money market framework\(^1\); the following investment objectives have been amended.

- The Fund Manager identifies the Sub-Fund as Short-Term VNAV Money Market Fund.

Investment Policy

- In order to establish a better assessment over the quality of money market instruments and do not over-rely on official credit rating agencies; the quality of the money market instrument has been amended to rely on a more detailed CAP which has been added to the base prospectus.
- In order to reinforce the preservation of capital, the deposits in a credit institution have been changed from 20% to a maximum of 10% per single institution.
- In order to represent the global portfolio maturities, the WAL and WAM have been adjusted to be derived from the whole portfolio and not solely on the money market instruments.
- In order to increase the investment in safe issuers; an exception has been added to invest 100% in a single specific issuer. In this case, the following rules will apply:
  - the Sub-Fund holds money market instruments of at least six different issues by the issuer;
  - the Sub-Fund limits the investment in money market instruments from the same issue to a maximum of 30% of its Portfolio Value; and
  - the Sub-Fund will make known on the Website through an addendum to this Prospectus published on the Website the issuers, mentioned under 1(a) of the Sub-Fund’s supplement, in which it will invest more than 5%.

Risks

- Due to the 100% exception mentioned above, concentration risk arises and is explained in the supplement.
- The changes of investment objective and policy define stricter restrictions in terms of ratings and maturity, to this extent the risk indicator of the Sub-Fund remains 1.

Valuation

- To reinforce its denomination as VNAV, it has been added that the Sub-Fund will not use amortization costs for its valuation.

Please see the relevant Supplement of a Sub-Fund in the Prospectus for the applicable conditions for the particular Sub-Fund, other than the conditions already set out in the Base-Prospectus.

Amendments taking Effect

The amendment of the prospectus will only become effective one month following the date of notification, hence 19 July 2018. During the one-month period, Participants of this Fund have the right to redeem their Participations at their respective Net Asset Value under the usual conditions.
